🌐 <https://liang-alan.github.io/>

Dedicated student pursuing **Computer Sciences** and **Environmental Studies** at UW-Madison with certificates in Data Science and Game Design. Interested in further enriching my knowledge and experiences in these fields. Strengths in effective communication and organization.

## Experience

### Peer Mentor | University of Wisconsin Madison

2024-Present

- Assisted in a course of 100+ students to create a positive learning environment
- Help students with critical frontend development skills : HTML, CSS, JS, React.js, React Native

### Beach Ambassador Project | University of Wisconsin Sea Grant

2023-2024

- Interacted with 500+ beachgoers to spread awareness about beach safety along the Milwaukee lakefront and at city wide events
- Developed the Beach Ambassador Website for easy access to information and resources

### Math Instructor | Mathnasium

2021 - 2023

- Worked as a team of 8+ instructors to support the learning of 100+ students every day
- Actively engaged with the community at local events to spark interest in mathematics
- Guided new employees through the process of effectively teaching math
- Worked as a team to excel in an adaptive work environment

## Clubs & Projects

### Chinese American Student Association (CHASA)

2022-Present

- Co-President: plan and oversee events of up to 500+ participants to promote Chinese culture

### EmptyFridge

2023

- 1st place for Best Sustainability Hack by Avanade: <https://devpost.com/software/emptyfridge>
- Created a website for a hackathon with the mission to reduce food waste in households.

### SpotLight

2023

- 2nd place: Empower 2.0 Hackathon (SonicBidsTrack) : <https://github.com/liang-alan/spotlight>
- Live music and small artist networking website designed to help everyone shine!
